

## **Certifications :**

Currently Direct Co. – For Exporting Agricultural Crops., holds the certificates of Ilak, GAP, and ISO-9001

Ilak, GAP, and ISO-9001 are all related to quality management and certification standards.

1. **Ilak:** Ilak is a certification standard for organic agriculture. The certification is awarded to farmers who adhere to strict standards for organic farming, including the use of natural fertilizers and pest control methods.
2. **GAP:** GAP stands for Good Agricultural Practices, which is a set of guidelines developed by the Food and Agriculture Organization (FAO) of the United Nations to promote sustainable agriculture. The guidelines include best practices for crop management, irrigation, pest control, and other aspects of agricultural production.
3. **ISO-9001:** ISO-9001 is a quality management system standard developed by the International Organization for Standardization (ISO). The standard outlines a set of requirements for a quality management system, including processes for continuous improvement, customer satisfaction, and the prevention of non-conformities.

We at Direct Co. – For Exporting Agricultural Crops., are proud to have obtained All three certificates related to ensuring high standards of quality and sustainability in agricultural production.
